

Society Seed Bank - February 2010

The following seeds are available from:

The Seed-bank Co-ordinator

Anne Murray

8 Wastney Terrace

Atawhai, Nelson 7010

Phone (03) 545 0849

e-mail anmur@xtra.co.nz

The price per packet for members is marked against each listing (package and postage inclusive). These seeds have been donated by members and several species have been imported. Some are in very short supply, and will be issued on a first in first served basis. Anyone who has an email address please include this with your order as this is a quick way to confirm your requirements. If possible please include some substitutes. Seeds labelled "NEW" have been received since the publication of the February seed list.

The seed list is going to be put on the website 2 weeks after the Journal is issued for the public to purchase seeds if they wish. Non-members will be charged \$1 more per packet.

You may pay by cheque, or make a payment directly into our Nelson Building Society account number 03 1354 0233391 00 giving a reference of your name. Please make cheques payable to CSSNZ (Inc). An invoice will be sent with each order. A limit cheque is also acceptable where you complete the cheque with the exception of the amount which will be completed when your order is fulfilled. Write along the bottom of the cheque limited to X amount of dollars.

Pay CSSNZ (Inc)	Date (to be completed)
Amount (leave blank)	\$.... (leave blank)
Signature: J. Cactus (sign your cheque)	
Limit cheque to \$X.00	

All names are checked for accuracy. When there is an = sign, it means that the second name is that accepted as correct by the CITES Cactaceae Checklist (2nd edition, 1999) or the New Cactus Lexicon. Where there is an * we can find no reference to the name. We have included all *Notocactus* within *Parodia*, with the old name in brackets. The seed offered is obtained from a number of suppliers and listed under the names given by them. The Society regrets therefore that it cannot accept responsibility for incorrect names on the seed packets.

Other Succulents

Price per packet

1. *Agave albescens* \$2
2. *Agave aurea* \$2
3. *Agave celsii* = *A. mitis* \$2
4. *Agave celsii* v *albicans* = *A. mitis* v *albidior* \$2
